Employee's Children Get High Scholastic Honors

Revolution Division Flannel Plant truck driver, Ernest W. Alston and East White Oak community leader, Mrs. Alston, 1805 Water Street, are proud parents of a large family of highly accomplished children. One of the two most recently honored is Miss Charlotte LeNora Alston, who last month received a Bachelor of Arts degree in Music from Bennett College, was awarded a scholarship for graduate study for next winter and has already acquired a position teaching music at Hiroshima Junior College, Hiroshima, Japan, in 1955. The other is George Harvey Alston, who was valedictorian and voted most intellectual of the 1954 class at Dudley High School. Harvey, who is interested in Electrical and Mechanical Engineering, plans to enter Morehouse College in Atlanta, Ga., in September. He holds a full tuition scholarship to that college and also won a scholarship to Johnson C. Smith University.

Other members of the Alston family include: a former school principal in the Greensboro City Schools who is now teaching here, a teacher in the Alamance County Schools, a registered nurse on the staff of L. Richardson Memorial Hospital, a former student of A. & T. College now with the U. S. Air Corps in Japan, and two other married daughters living in New York City.

Charlotte was graduated at Bennett as one of the 10 highest ranking students in the class of 1954, and she is featured in the current edition of Who's Who Among American Colleges and Universities.

Composer

Although the young musician specializes in piano and organ, she has composed a number of selections for the piano and several chorals, one of which was recently presented for the first time by the Bennett College Choir in Milwaukee, Wis. She has traveled extensively with the choir and college quartet as piano soloist. Charlotte wrote the music for two ballets which have been presented at annual May-Day festivities at the local college. She also is composer of the music for the Bennett College weekly radio broadcast. She has received several academic and music scholarships.

Other Activities

In addition to the above accomplishments, Charlotte served as president of the Bennett College student body; president of the college orchestra, in which she studied violin; assistant director of the college choir; news editor of the school newspaper; accompanist for the college choir and the modern dance group; junior counselor to freshmen; treasurer of the student body, and in many other offices.

This year she received a pin for exceptional service to the college choir and was awarded the Lula Donnell medal for the most outstanding achievement by a Greensboro girl.

Active in community affairs, Charlotte has served as supervisor of the East White Oak summer playground for the past four years.

She is director of music at the East White Oak Baptist Church and the A. M. E. Zion Church. During her senior year at college, she was minister of music at the United Institutional Baptist Church. She also teaches Sunday School.

While in Japan, she expects to study Japanese culture, particularly the music.

Brother's Honors

Her brother, Harvey, who took highest honor in the 1954 class at Dudley High School is also musical. He composed the words and music for the class song. According to the school's principal, J. A. Tarpley, Harvey's record at Dudley was one of the highest ever achieved there.

He has served as president of several organizations: sophomore class, senior class, the school's chapter of National Honor Society, mixed chorus and audio-visual aids organization. He has been a member of many other school groups.

Civic Activities

For two consecutive years, Harvey has attended the Christian Youth Conference at Fayetteville and the N. C. Family Life Conference. Recently he appeared on an inter-racial panel on television discussing the guidance program in the state's city schools. At present, he is a member of the YMCA and his church choir and is secretary of the Sunday School.

Former Principal

A sister, Mrs. Pauline Alston Donnell, is the former principal of the Jonesboro School here in the city of Greensboro. She now teaches in the same school which was recently consolidated with another. Wife of Raymond Donnell, employed in the Carding Department at White Oak Plant, she holds a bachelor of arts degree from Bennett College and a master's degree from A. & T. Mrs. Donnell served for two years as secretary to the Greensboro unit of the N. C. Teachers Association. She served as a special consultant at the S. C. Teachers Association meeting in Columbia in April.

Active in the community, she is 1954 chairman of the Susie B. Dudley.

(Continued on page 4)

Oilways Magazine Features Cone Mills

The June issue of Oilways, monthly house magazine of Esso Standard Oil Company carries a seven-page illustrated article on Proximity and White Oak Plants entitled, "The Carolina Cones." Illustrations are photographs of models wearing Cone denims and of scenes inside the local plants.

Many Cone mills use Esso industrial products. Oilways is one of several publications of companies supplying goods to Cone Mills which recently have featured one or more of the Cone plants in their publications. This not only serves as a good will measure toward consumers of their products but is reciprocal in that it puts Cone Mills processes and products before their own reading public.

The article begins with a quotation from the letter of advice written to Herman Cone I when he departed from Germany for America in 1846.

A brief history of the company follows, then a roster of the various fabrics made in the 20 Cone plants.

The article concentrates on Cone denim, giving first a history of the fabric in general, then a discussion of the various steps in making the cloth.

30 At Minneola Study First Aid

A five weeks course in first aid has been completed at Minneola Plant, Gibsonville. Instructors were Garland Murray, director of safety services for the Greensboro Chapter of the American Red Cross; Charles McNairy, personnel director of Blue Bell, Inc., and Wallace Bourne, safety supervisor for Cone Mills.

The thirty receiving certificates are as follows:

W. C. Belvin, J. B. McKenzie, Clyde Bateman, Manley May, J. F. Shelton, E. J. Cobb, Sr., E. R. Greninger, Sr., G. P. Younger, J. D. Patton, J. M. Riley, William Allen, W. J. Randolph, Ralph Allen, T. G. Evans, Ralph Wood, H. R. Yow, Samuel Allred, Howard Shepherd, T. J. Hoffman, C. G. Schofield, A. J. Hill, C. L. Younger, Clyde Overman, Clifton Overman, Vernon Younger, John W. Reid, Willie E. Coffin, Ray F. Patton, Roy Stallings, and H. J. Reid.

Beryl Hinshaw did not receive a certificate because he did not enter the course until the fifth lesson.

Three Hostesses Honor Bride-Elect

Mrs. Carl Nelson, Mrs. Alton Patterson and Mrs. Harry Patterson entertained at a miscellaneous shower at Proximity YMCA, June 19, for Miss Dorothy Tingen who is to be married on July 3 to Billy Frank Patterson. The wedding will take place at Eller Memorial Baptist Church.

The bride-elect is the daughter of Mr. and Mrs. John Stater Tingen of Burlington, and the bridegroom-elect is son of Mr. and Mrs. E. R. Patterson, 1107 Summit Avenue. The father is overseer of the Beaming and Slashing Department of Proximity Plant.

Miss Tingen, a graduate of St. Leo's School of Nursing, is on the staff of Wesley Long Hospital. Her fiancé, who holds a bachelor of science degree in textiles from N. C. State College, Raleigh, is with Burlington Mills. He recently returned from Korea where he served as second lieutenant in the Army.

Among the 38 guests were the mothers of the wedding couple.

Personal

S/Sgt. Robert Winslow, stationed at Limestone Air Force Base, Limestone, Maine, is home for two weeks leave with his parents, Mr. and Mrs. P. B. Winslow.

Sgt. Winslow has recently been on projects to Puerto Rico, Bermuda and will go to England later in the summer.

Last year was the fourth consecutive year of increase in the traffic death toll.

INTRODUCING—John A. Prone, a Cone "employee" who seems to have a strong tendency for getting injured by accident. During the next three months John A. (for Accident) Prone will appear on our plant bulletin boards. Watch for his antics.

Accident Prevention Contest Starts July 1

The second annual Third Quarter Accident Prevention Contest for Cone plants and units will begin on Thursday, July 1, ending three months later on September 30. Plaques will be awarded again to the plants and units having the best accident prevention record during this three-month period. Superintendents and personnel assistants in each plant have been asked to inform plant personnel about the contest.

Both the number and the severity of plant injuries will be scored against the man hours worked in the respective plants or units in order to give a fair comparison. However, the larger plants will compete in a separate group from the smaller ones so as to avoid undue advantage to either.

John A. Prone

This issue of The Textorian introduces to its readers a new character, one John A. Prone, who will be seen on plant bulletin boards during the next three months. John A. will call attention to certain characteristics found in the working habits of many people. He is said to be amusing in the antics which he performs, many of which may not be too unlike the practices of other Cone employees.

Participating in the Accident Prevention Contest will be Proximity, Revolution, White Oak, Rayon, Pineville, Tabardrey, Granite, Print Works, Minneola, and Edna in one group. In the other will be Power, Knox, Central Maintenance, Randleman, Electricians, and Rayon Dyeing and Finishing. Guilford Products, which last year tied for first place with the Electricians, has agreed to withdraw from this year's contest because of the small number of man-hours the plant would make during the three-month period. Winner of the trophy for the larger plants in the 1953 contest was Tabardrey.

23 Participate In School Sports

Sports were quite popular at Proximity School this past year. Fifteen students participated in speedball, basketball and softball; six in two of these and two in only one sport.

Those taking part in three sports were Jeanette Brame, Ann Collins, Sally Cagle, Judy Deaton, Shirley Everette, Evonne Horne, Gloria Jones, Mae Lanning, Ruth McKinney, Becky Moore, Alberta Smith, Brenda Summers, Margaret Stanley, Sandra Way, Patsy Yow.

Taking part in two sports were Patricia Allred, Sarah Andrews, Hilda Elium, Carolyn Hinshaw, Shirley Oldham, Carolyn Ward. Mary Jenkins and Betty Taylor participated in one sport, speedball.

As already noted, Jeanette Brame, Ann Collins and Harold Wrenn won the Clarence N. Cone Sportsmanship Award.

More than 15,800 persons were killed in weekend traffic accidents last year.

Three out of four traffic accidents happen in clear weather on dry roads.

YOUR NEWS REPRESENTATIVE . . .

Edna S. Ellis

This is Mrs. Edna Searce Ellis, The Textorian's representative at Eno Plant, Hillsboro. A native of Hillsboro, Mrs. Ellis attended high school there and Croft's Secretarial and Accounting School, Durham. She has been employed in the plant's Pay Roll Department for the past eight years. Her husband is Nat D. Ellis, native of Johnson City, Tenn. Mrs. Ellis has been reporting news to The Textorian for nearly two years. She says that since she has been known to most employees at Eno since childhood, she prefers a small write-up about herself.

Southern Industrial Relations Conference To Be July 21-24

The 35th annual Southern Industrial Relations Conference will be held July 21-24 at the Blue Ridge Assembly near Asheville.

Discussion topics for the general sessions will include: "Problems of Communication at the Forman's Level," "Executive Development—Key to Our Industrial Future," "The Future of Personnel Management," and "An Honest Day's Work."

Subjects for the group meetings have been announced as follows: "Achieving a Common Understanding With Your Subordinate Supervisors," "Labor Relations," "Interviewing, Selection, and Induction," "Grievances," "How To Let People Know Where They Stand," and "Communications."

Program speakers will include: Guy B. Arthur, Jr., president, Guy Arthur and Associates, Inc., Toccoa, Ga.; W. H. Bailey, general personnel director, Sonoco Products Co., Hartsville, S. C.; Alex Bavelas, industrial relations section, Department of Economics and Social Science, Massachusetts Institute of Technology, Cambridge, Mass.

Richard R. Crow, director personnel development, Continental Oil Co., Dallas, Texas; Grady E. Grant, personnel director, Dixie Mercantile Co., Chattanooga, Tenn.; George C. Harrison Jr., foreman, American Cast Iron Pipe Co., Birmingham, Ala.

Dr. George D. Heaton, pastor, Myers Park Baptist Church, Charlotte; J. W. Jels, director industrial relations, Riegel Textile Corp., Ware Shoals, S. C.; Dr. Kenneth McFarland, educational consultant to General Motors, Topeka, Kans.

Reuben B. Robertson, Jr., president, Champion Paper and Fibre Co., Hamilton, Ohio; G. Maynard Smith, attorney, Atlanta, Ga.; Ira Stuart, public relations director, Southern States Industrial Council, Nashville, Tenn.

Edmond J. Thimme, industrial relations manager, Electric Department, Public Service Electric and Gas Co., Newark, N. J.; and James C. Worthy, Assistant Secretary of Commerce, Washington, D. C.

Funeral Held For Lacy Haithcock

Funeral was held yesterday for Lacy Haithcock, 52, 1214 17th Street, who died Tuesday afternoon at Moses H. Cone Memorial Hospital. He had been seriously ill for one week and in declining health for three years.

Mr. Haithcock, who operated Cone Mills waterworks, had been employed by the company for 30 years.

Service was at Sixteenth Street Baptist Church with Rev. W. C. Adkinson, pastor, and Rev. Lattie Henderson, pastor of Pleasant Garden Church of Nazarene, officiating. Burial was in Lakeview Memorial Park.

Surviving are his wife, the former Mary Shepherd; two sons, Jack Harold and Lacy Haithcock Jr., both of Greensboro; three daughters, Mrs. Fred Cowen and Mrs. Betty Butler, both of Greensboro, and Patricia Ann Haithcock of the home; two brothers, David Haithcock of Greensboro and Curtis Haithcock of Roseboro; and three grandchildren.

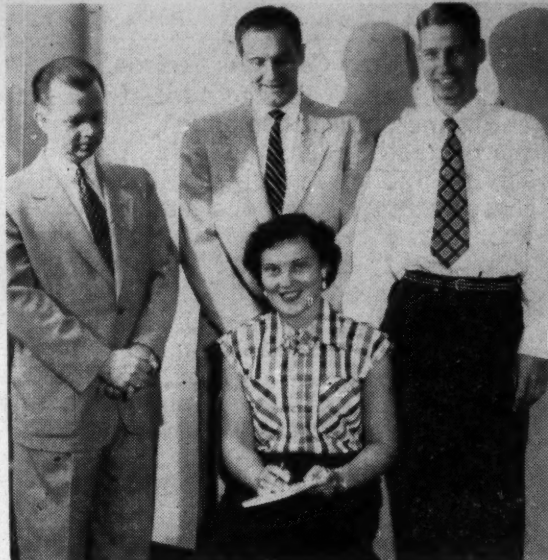

White Oak Club Interested In Scouts

White Oak Community Club heard a talk on the needs of Girl Scouts by Miss Helen Fendren of the Greensboro Girl Scout Office.

The community club has been sponsoring Girl Scout Troop 128 for girls age 10-18. At this week's meeting the club voted to continue its sponsorship of the troop but to limit it to girls aged 10-14. This will eliminate the senior group sponsorship.

Mrs. Ray Tugman gave the devotional at the meeting which was preceded by a covered dish supper.

There will be no meeting in July. The August meeting will be with Mrs. L. C. Harris on Church Street Extension.

NEW CLUB OFFICERS—Here are the newly elected officers of Cone Mills Club. Elections took place at the club's annual outing and business meeting Saturday, June 12. They are, Miss Carolyn Smith, seated, secretary; Roy Yarbrough, left, treasurer; Fred Ziprik, vice president, and Byron Calhoun, president.

Y's Men's Club Softball League Sets Fast Pace

White Oak Y's Men club, and the Y.M.C.A. physical department, jointly sponsoring the Cone Mills softball league at Central field, have provided players and fans for one of the fastest leagues in the city. The enthusiasm of the spectators has seldom been equaled here. Any Monday or Thursday night, cheers and jeers from the partisan fans can be heard in all parts of this area. The players, who are employees at the various plants, are displaying a high degree of competitive spirit and sportsmanship, and most of them seem to be holding up under the strenuous physical requirements of the game.

Mrs. Lowell Steele's Daughter Weds Mon.

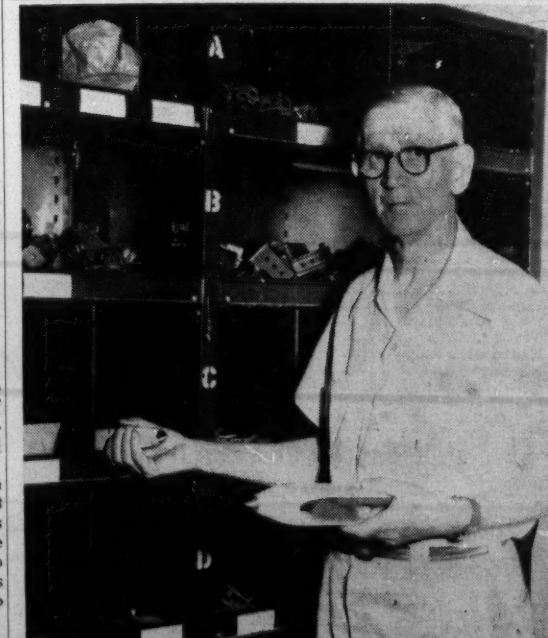

Miss Hazel Virginia Steele, daughter of Mrs. Lowell Steele, 907 Courtland Street, and the late Frank O. Steele, will be married next Monday at 8 p.m. to Bernard Cohen of New York City and Cambridge, Mass. The wedding will take place in Alumnae House, Woman's College. Rabbi Fred I. Rypins, of Temple Emmanuel, and Dr. Eugene C. Few, pastor of West Market Street Methodist Church, will officiate. Mrs. Steele has directed community activities in Revolution for several years and has recently been associated also with Cone Memorial YMCA.

The bride-elect, who has been employed in Boston, Mass., for the past year, holds an A.B. degree from Woman's College. In the summer of 1952 she lived in France under the program of Experiment of International Living. She taught in the Lincoln High School a year before going to Boston last summer.

Mr. Cohen attended the City College of New York and graduated from the University of Oklahoma. He received a master's degree in electrical engineering from Massachusetts Institute of Technology. He is an electronics engineer for Raytheon Manufacturing Company, Boston.

Plant Office Honors Richard Eichhorn

Print Works Office staff honored C. Richard Eichhorn today at a luncheon in the plant conference room. Mr. Eichhorn, who is being transferred to the Cone Mills Clerical Standards Department on July 12 received a Shaeffer Snorkel pen from his co-workers. Presentation was made by company Vice President Sydney M. Cone, Jr.

COMPLETES HALF CENTURY HERE—Hugh Andrews, 67, White Oak Plant supply clerk, who served from 1922 to 1944 as assistant overseer of the Carding Department, last Monday passed his 50th milestone with Cone Mills. Mr. Andrews, whose address is 1508 19th Street, is a Guilford County native. He came to work for the local mills in June of 1904. He is the father of six children, three of whom are deceased.

MINNEOLA FIRST AID—Classes in First Aid have been completed at Minneola Plant, Gibsonville. Shown here is just one of the demonstrations. Left to right are Clyde Overman, foreman of the Carpenter Shop; Ray Patton, assistant overseer of Dyeing, and John Reid, assistant overseer of Weaving. The victim is Clarence Schofield, assistant overseer of Weaving. (See story.)

Must Consider Seriously

We will risk being accused of harping on the same subject too much, but with the more exacting demands being made by the buying public, we feel that it is to the ultimate welfare of everyone connected with the mills to realize fully the extreme importance that quality is playing in merchandising textile fabrics today. It is now very evident that demands for higher and higher quality are starting with the man or woman who goes into a store to buy fabrics. The retailer, of course, passes his complaints on to the garment manufacturer who turns to the mill that makes the cloth.

There is little doubt but that cloth which several years ago was considered first class in every respect does not measure up to expectations and demands of the garment manufacturers today. In all fairness, we must also add that garments which several years ago were considered good merchandise do not always have the approval of customers today.

In order to meet the exacting requirements of the times, those who work in the various departments within a mill cannot escape their responsibilities. Bad laps can have a detrimental effect on the final finished cloth. The same is true of sliver, roving yarn, etc. Spattered oil, grease spots, bad piecing, slubs, uneven tension, broken picks, kinky filling and other preventable defects play a large part in the production of goods which cannot be sold as firsts.

There is no department which can let down in quality control without seriously affecting the resultant fabric. For that reason each individual must consider himself as an important part of a quality team. Team performance will assuredly suffer if an individual falls down.

During the recent sales convention held by Cone Mills Inc. in Greensboro, the need for better quality was stressed more than any other point. Our representatives who are in constant contact with our customers know what they are talking about and we must take their admonition and advice more seriously.

LISTEN AMERICANS!

... by Dr. George S. Benson
DIRECTOR - NATIONAL EDUCATION PROGRAM
Searcy, Arkansas

The following sound observation regarding education has been made by Mack C. Schinnerer, superintendent of the Cleveland (Ohio) schools:

"There is a colossal oversupply of people in my country who either never discovered some of the basic principles of economics or think that the economic laws have been repealed. We hear much wailing that the schools have failed in this regard and the cry is for required courses in economics. We have failed—in school and out—but the answer is not in required courses.

"The answer, in my opinion, lies in a continuous effort to inculcate in children, from the kindergarten through high school, some basic and very simple facts. There are three things which almost anyone can be brought to understand and if these three are ingrained, we can leave the more complicated principles to the experts.

"No. 1. You can't get something for nothing. Too many think they can. That is the basic of gambling and most speculation. Giving a higher mark in school than is earned is proving that the student can get something for nothing. That is bad business. When parents urge no homework, they somehow expect something for nothing. One gets out of school work about what he puts into it. Only parasites get something for nothing.

"No. 2. You can't spend more than you have and remain solvent. The longer such a system is followed, the more impossible it becomes to keep afloat. Know anyone who trades in a mortgage car on a new one and has both a newer car and a bigger mortgage? The woods are full of such people. It is bad economics. It's somewhat like drug addiction. This applies equally to a person, a business, or government.

"No. 3. You cannot equalize ability by a handicap system. It is wrong to expect as much from a youngster with a low I.Q. as is expected from a youngster with a high I.Q. It is also wrong to set up handicaps so that they come out even. Leave that for the exclusive use of the racing stewards. Competition still has a place in America, thank goodness, and I don't want it any other way.

"In every school day, there are numerous incidents in each students school experience when these three fundamentals are present. Just repeatedly bringing them to the pupil's consciousness will work wonders. If all our people accepted these three economic axioms and lived by them, we would live in an economic paradise."

Salisbury News

By Pauline Saffit

The following children of Cone Mills employees were on the Honor Roll at Boyden High School last year: Peggy Eldson, daughter of Mr. and Mrs. C. W. Eldson; Gloria Anderson, daughter of Mr. and Mrs. David Hisslop; Pat Hinceman, daughter of Mr. and Mrs. Dan Hinceman; Sylvia Cranford, daughter of Mr. and Mrs. C. W. Cranford; Katurah Mesimer, daughter of Mr. and Mrs. Virgil Mesimer; Barbara Morgan, daughter of Mrs. Mamie Grubb; Sue Page, daughter of Mr. and Mrs. John F. Page; and Carol Shenk, daughter of Mr. and Mrs. Grady Shenk.

The Vacation Church School of Haven Lutheran Church began Monday, June 14 at 6 p.m., and ended Friday, June 25. The theme for the school was "Friends with Jesus."

Charlotte Conner, daughter of Mr. and Mrs. Frank Conner, is spending two weeks in Newport News, Virginia, with her brother, James Conner.

Mrs. Bill Williams has returned to work after having undergone surgery at the Rowan Memorial Hospital.

David P. Kivett, son of Mr. and Mrs. Gene Kivett, graduated from Boyden High School June 1. David has been working part-time as a stock clerk at Kroger's Super Market and since his graduation he has been made full time stock clerk.

Peggy Elmore, daughter of Mr. and Mrs. Ross Elmore, entered Rowan Memorial Hospital last week for an appendectomy.

Mrs. Pauline Hilliard returned home last week from the Rowan Memorial Hospital.

Mr. W. L. Jacobs entered the Charlotte Eye, Ear and Throat Hos-

pital last week for an operation on his left eye.

Mr. and Mrs. Carl W. Eldson of 30 Knox Street have announced the engagement of their daughter, Doris Anne, to James Eugene Goodman, son of Mr. and Mrs. Brown B. Goodman. The wedding will be an event of August 15.

Mike, small son of Mr. and Mrs. Vernon Reavis, is receiving rabies prevention treatment as the result of having been bitten by a stray dog.

Mrs. Irene Clary is doing nicely following a major operation at the Rowan Memorial Hospital June 11.

The officers and teachers, with their families, of the Nursery Department of Stallings Memorial Baptist Church, enjoyed a weiner roast at the home of Mrs. Virgil Gudger Tuesday, June 15.

Mrs. J. F. Knight, Sr., and Mrs. W. H. Alderson entertained Wednesday evening at the latter's home at 109 Mitchell Avenue to compliment Miss Connie Moore, bride-elect of Willis Linder, whose wedding is scheduled for June 19. Miss Moore is the daughter of Mr. and Mrs. Bert Moore of the Weave Room.

Mr. and Mrs. E. R. Secret and children, Bonny and Russell, of Lexington were Sunday guests of Mr. and Mrs. Walter Kepley of 1123 South Main Street. Mrs. Kepley is the mother of Mrs. Secret and is employed in the Weave Room.

June 15 marked the 35th anniversary for Mrs. Maude Beck as an employee of the Cone Mills. Her many friends congratulated her and wish for her many more years of service to the company and continued good health.

Bobby Clay Lindsay, son of Mr. and Mrs. E. C. Lindsay, of 1131 South Main Street, came home last Sunday to spend several weeks vacation.

Mr. and Mrs. E. C. Lindsay, of 1131 South Main Street, came home last Sunday to spend several weeks vacation.

Lists Attitudes Related To Accidents

The director of the Traffic Division of the National Safety Council has drawn up a list of attitudes which are related to accidents of all causes:

The list includes the following: (1) Selfishness—the "me first" attitude responsible for much lack

cation with his parents before resuming his summer school studies. He will graduate in December from the University of Tennessee School of Pharmacy.

James Whirlow, son of Mr. and Mrs. Carl Whirlow, is convalescing at his home after being released from the Rowan Memorial Hospital. He was in an unfortunate accident June 7. While riding his bicycle and trying to avoid hitting a dog, he was thrown from his bicycle and his head struck the cement road. He was unconscious for several days. His many friends will be happy to know he is well on the road to recovery. Mrs. Whirlow is employed in the Weave Room.

of consideration for others; (2) Self-importance—the idea that "I'm too big for rules—they apply only to the other guy;" (3) Overconfidence—"I'm good—I don't have to be careful—I know it all;" (4) Chance taking—the "live dangerously" concept, sometimes involving great faith in luck—"It can't happen to me;" (5) Fatalistic attitudes—you go when your number is up, at what you do doesn't make any difference; (6) Hostility—a constant unfocused feeling of anger towards others, resulting in an aggressive attitude; (7) Attitude of inferiority—"I won't be pushed around;" (8) Competitiveness—trying to get ahead—to beat the other fellow; (9) Unconscious self-destruction—an attitude frequently noted by psychologists—a need to injure yourself; (10) Exhibitionism—showing off; (11) Pleasure in destruction—a personality maladjustment in which pleasure is derived from destroying things; (12) Transfer of guilt—creating situations in which blame can be placed on others, thus relieving feelings of guilt on the part of the instigator.

of consideration for others; (2) Self-importance—the idea that "I'm too big for rules—they apply only to the other guy;" (3) Overconfidence—"I'm good—I don't have to be careful—I know it all;" (4) Chance taking—the "live dangerously" concept, sometimes involving great faith in luck—"It can't happen to me;" (5) Fatalistic attitudes—you go when your number is up, at what you do doesn't make any difference; (6) Hostility—a constant unfocused feeling of anger towards others, resulting in an aggressive attitude; (7) Attitude of inferiority—"I won't be pushed around;" (8) Competitiveness—trying to get ahead—to beat the other fellow; (9) Unconscious self-destruction—an attitude frequently noted by psychologists—a need to injure yourself; (10) Exhibitionism—showing off; (11) Pleasure in destruction—a personality maladjustment in which pleasure is derived from destroying things; (12) Transfer of guilt—creating situations in which blame can be placed on others, thus relieving feelings of guilt on the part of the instigator.

Eno Plant News

by Edna S. Ellis

Miss Priscilla Corintha Clayton, daughter of Mr. and Mrs. Rainey B. Clayton, and Brantly Marvin Ray, son of Mr. and Mrs. Theodore B. Ray, exchanged marriage vows Wednesday evening, June 9, at the Gospel Baptist Tabernacle with the Rev. W. I. Conway officiating.

Preceding the ceremony, the Rev. Louis Thompson, pianist, and the Rev. Thurmond Head, soloist, presented a program of nuptial music.

A reception was held after the ceremony at the home of the bride's grandparents, Mr. and Mrs. John A. Johnson for the immediate families of the couple and wedding attendants.

Mr. and Mrs. Roscoe Walser,

Tom Kenion, Bob Carr, Odell Walser, Mrs. Betty Sue Minnis, Misses Annie Sue Hayes and Shirley Hines spent last weekend at White Lake.

Mrs. Lillian Ligon attended the Graduation Exercises at Lowes Grove School in Durham June 9 as guest of her nephew, Harry Jones, one of the graduates. Mrs. Ligon was accompanied by Miss Jo Annie Austin, and Mr. and Mrs. Petain Berry.

Mrs. James Faucette's grandson, Rodney Green, was at the University of North Carolina last week as a representative of his school at the Boys State. Rodney is a rising senior at Knightsdale School in Raleigh.

Mrs. Elene Vincent is a patient at Watts Hospital in Durham where she underwent a major operation last week.

Mrs. Oneita Howard and family, Ray Brown and Amie Rigsbee of Carboro spent last Sunday at White Lake.

Dexter Smithy of the Carding Department has returned to his home from N. C. Memorial Hospital where he underwent an operation.

Mrs. Alma Porterfield has a new granddaughter! Jackie Lee Conklin arrived June 13 at Roanoke, Va. The parents are Florence and Jack Conklin, both former residents of

Hillsboro. Expressions of sympathy are extended to the family of George Bivins who died last week after an extended illness. Mr. Bivins was employed at Eno Plant before his retirement a few years ago.

The William Adams, Mrs. Al. Adams and Mrs. Annie Adams enjoyed a trip to Carolina Beach last weekend. Mrs. Annie Adams of Ashland, Va., is visiting with relatives in the community.

Mrs. Emma Dee Medlin Turner was honored at a pink and blue shower last Saturday at the home of Mrs. Robert L. Crabtree. Mrs. Turner received many gifts from her friends present.

12 Ways To Save Your Automobile

While you're testing your golf clubs and fishing tackle, also take a look at the car that has seen you through a winter of bad weather and hard usage.

Summer is arriving and almost everything around the house is scheduled for a sprucing up with the exception, in most cases, of the family car.

One out of every three cars is in need of some kind of repairs according to a committee composed of members of the automotive industry. The committee is urging the nation's more than 45,000,000 private car owners to improve the appearance of their cars.

The committee points out that last year there were more than 5,000,000 accidents reported in which property damage was less than \$25. The largest proportion of these accidents resulted in scrapes, small dents and torn moldings, many

of which are still unrepaired. "A man who would be completely humiliated at the thought of wearing a shirt with a torn collar will drive around for months and even years in a car with dents that obviously are rapidly corroding the entire fender," says Major C. A. Speed, director of the Motor Vehicle Department's Highway Safety Division. "He'll spend thousands of dollars for the car, which represents the second largest investment most of us make, and then won't spend a few dollars and a few hours keeping it in shape so he can be proud of it."

The average car today has been driven 43,412 miles according to the committee. In 1941, people calculated a car had a life span of about ten years in which it would pile up about 85,000 miles. Today, we can expect a new car to last 14 years during which it will have been driven 121,000 miles.

A properly cared for automobile not only looks better but is safer, says Major Speed. "A driver, conditioned to maintain his car carefully, will also be the kind of driver who isn't involved in accidents."

The automotive committee has come up with 12 points for maintaining the appearance of your car and extending its life and value:

1. Get the dents out of your fenders. On this point most drivers are guilty. Heat, humidity and weathering of all kinds enlarge damaged areas. Left unrepaired for any length of time, they will eventually corrode so that a new fender will be necessary.

2. Attend to every spot of rust on your car, no matter how small. It will cost a lot more money later if you don't do it now. Rust is like a cancer that eats into the metal where the finish is chipped or scratched. Your right rear fender is especially likely to rust. Small stones and abrasive material thrown up by the wheel wear away the finish and expose the metal to water and various road chemicals that wash toward the curb in stormy weather and then are splashed up on your fender. Check all joints, under fenders and all similar places where moisture accumulates, for moisture is sometimes retained for days and such places are likely to rust rapidly, particularly if the car

is more than two years old.

3. Wash your car frequently, particularly if you live in an area where it is exposed to sea salts. Ocean spray is highly destructive to paint and should be washed off the car as soon as possible. If the surface is coated with dried mud or road grime, you'll have to be particularly careful in cleaning it. Always use a hose for the washing job. You risk scratching the car by driving the dirt and fine grit right into the finish when you use a cloth. The same thing will result if you use a stream of water with too much pressure, so use the sprinkler head on the hose and make certain that the valve is open less than halfway. For drying and polishing, use a coarse mesh cloth such as cheesecloth or an open mesh woven especially for the purpose. An ordinary cloth of tight weave will make it impossible to get a good polish and also likely to catch abrasive particles that will scratch the finish of the car. Take the same precautions when washing the windows of the car.

4. Have your car waxed as frequently as its appearance shows it needs it. That will depend on your weather conditions. It will keep the finish in proper condition so there will be less danger of rust. If you are waxing the car yourself, try to do it on a cloudy, humid day so that the wax does not dry too rapidly. If you must do it on a clear day, find a shady spot.

5. Although it is not directly related to the outward appearance of your car, you'll save yourself money if you have the underpart of the car undercoated with one of the special rubber-based protective coatings prepared for that purpose, particularly if you live in coastal areas where salt corrosion is an important factor. No matter where you live, however, undercoating your car, a relatively inexpensive process, will protect it from gravel and rust and extend its life considerably. It also eliminates the need for washing the underbody of the car.

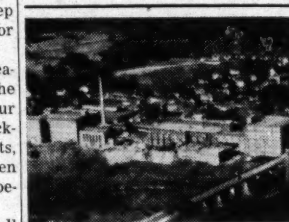

6. Be extremely careful of your chrome. Anything harmful to the finish on your car is especially harmful to the chromium plates. You can avoid much of the damage from road conditions by having the chrome coated with one of the special chrome protective coverings. And check the chrome trim for looseness. Any garageman can repair loose chrome simply and inexpensively with clips. If you lose the whole strip, it becomes much

TEXTILES CLASS—This is part of the Textiles class in the School of Home Economics, Woman's College, which toured White Oak Plant recently. Mrs. James Fargis is the inspector.

SECOND PLACE—Miss Thelma Ballard won second place in the Salisbury Beauty Pageant which was sponsored by the Junior Chamber of Commerce there, June 7 and 8. The judging was based on talent as well as beauty. Miss Ballard did a comic skit as her talent presentation. Thelma is five feet two inches tall, has brown hair and eyes and is 20 years of age. She is the daughter of Mrs. Maude Ballard who is employed in the weave room of Salisbury Plant. Miss Anne Hancock was first place winner.

TO TOUR WEST—Harley Melton, son of Mr. and Mrs. Glen Melton, will accompany his parents on a trip to Nebraska and other western states during the latter part of July and first week in August. Since the first of June, he has been visiting relatives in Galax, Fries, Hillsville and Covington, Va. Harley has just completed his sixth year at Caesar Cone School, the last four of which he had no absences. His mother and father are both Cone Mills employees. Mrs. Melton is in the Weaving Department of Revolution Rayon Plant, and Mr. Melton is in the Winding Department of the Revolution Flannel Plant.

Don't Let Week End Bring Permanent Rest

Practically all of us look forward to the week end as a time for rest and pleasure. We can catch up on our golf game, work around the house and have some fun with the children. It's the time for going to church, watching television, listening to the ball game or visiting or being visited by friends.

The week ends are all of these things—except on the highways. In 1953, 15,800 persons were killed and 800,000 were injured in week end accidents, according to figures compiled and recently released by The Travelers Insurance Companies. Forty-one per cent of the deaths and 36 per cent of the injuries were recorded on Saturdays and Sundays in 1953.

Saturday continued to be the most dangerous day of the week. One reason is that more cars are in use Saturday than on any weekday. There is another distinguishing feature which sets this day apart from others. For too many people, Saturday night is a time when drinking and driving combine. No one knows exactly how many traffic accidents are caused by drinking drivers but everyone knows it is a major problem. Everyone needs to know that even one drink before driving is too many. Week ends are a time of rest. For too many they are the beginnings of permanent rest.

VACATION BIBLE SCHOOL—Shown here are the students who attended the Vacation Bible School, Ellers Memorial Baptist Church, which ended June 16. There were 258 children enrolled in the school and the average daily attendance was about 200. Shown with the group are Rev. J. T. Edwards, seated, front row; Miss Celia Jones, superintendent of the nursery department; Mrs. Wade Wylie, beginners department; Mrs. C. V. Webster, primary department; Mrs. Raymond Collins, intermediate department; Mrs. J. W. Morrison and Mrs. Raymond Kincaid, junior department.

Health For All

It Isn't Funny

Tripping and falling flat on one's face isn't funny, even if the only hurt is to one's dignity. It is definitely un-funny when skinned knees, bruises, or even broken bones are involved.

"Accidents will happen," we sometimes say, and perhaps this bit of philosophy helps us feel better when one has happened to us. But many accidents would happen if we were less philosophical and more careful about preventing them.

So often what causes an accident is such a little thing. A little spot of wax on the floor that wasn't thoroughly rubbed—a little tear in the stair carpet—a little toy left in the dark of the upstairs hall—a little nail loose in a board on the porch—little things that should have been taken care of before they could cause trouble.

Most of us are "going to" fix the things around the house that we know are hazards. We are "going to" find a place to put the flower pots that have piled up on the cellar stairs, and we are "going to" fasten the screen in the children's room more securely, and "going to" get a covered metal basket for burning trash in the backyard, and get a non-skid pad for the rug in the front hall.

"I must have a small step-ladder in the kitchen," we say, but we go on using a precarious chair to stand on.

Today is a very good day to do these things we are "going to do." And while we're at it, why not have an electrician check that wiring we've had our doubts about?

Why not put a lock on the medicine cabinet, so that the youngsters can't help themselves to the grown-ups pills? And how about a screen to fit clear across the fireplace? Because accidents aren't funny. Bruises and burns and broken bones are not funny at all.

Call unto Me, and I will answer thee, and show thee great and mighty things which thou knowest not.—(Jeremiah 33:3).

No matter how worldly successful a man may be, no matter what important tasks he performs or what high office he holds, it is as nothing compared with the 'great and mighty things' that the humblest human among us may know and do, if he calls upon God, and God is with him wholly.

Revolution Check-Up Time

Wednesday, 8:00-noon—Clothing hour.

Wednesday, 1:00 to 4:00—Baby Clinic at White Oak Y.

Friday, June 25, 12:00—Sweet-Age Club at Proximity YMCA.

Employee's Children

(Continued from page 1)

ley Branch of the YWCA membership campaign. Last week she attended the YWCA National Conference at Blue Ridge. She is an active member in Providence Baptist Church where she has taught Sunday School and headed the vacation Bible School.

Her daughter, Gwendolyn, aged 11, has appeared in various ballet recitals.

Others in Family

Another of the Alston daughters, Catherine, is wife of Robert McGibony, another White Oak employee. She graduated from Emmanuel Lutheran College and completed training as registered nurse at Reynolds Kate Biting Hospital, Winston-Salem. She is now on the L. Richardson Memorial Hospital staff.

Others are Mrs. Myrtle Alston Weeks, Bennett College graduate, who has taught for a number of years in the Alamance County Schools; Albert Eugene Alston, former A. & T. student, now with the U. S. Air Corps in Japan; Mrs. Truella Alston Haley, who attended Bennett College, now living in New York City, and Mrs. Katie Alston Cox, also now living in New York.

Bicycle Riders Need Safety Rules

Hey parents! Remember that gleam in Junior's eye when his eyes lighted on that brand new shiny bicycle? Few things he will receive in his life time will equal his delight and pleasure in this welcome gift. And there's a good reason for it.

It will take him out into the wide open countryside, enable him to join his pals on trips to exciting play-places, go sight seeing over hill and dale. It will give him exercise, make his body tingle and it will make him a more useful helper—in a jiffy he can be down to the grocery store.

If you haven't bought his bike yet and plan to give him one for perhaps a birthday, you should know how to shop for one.

First, make the proper choice for size. Telling your bicycle dealer his height will help. If it is at all possible, have him "try it" for size.

For safety's sake get the bike that fits—not one he can "grow into." American bikes are adjustable to take care of growing boys and girls and a bike that fits properly is easy to learn on and easy to control.

If Junior is under ten or eleven it is not wise to buy a bicycle equipped with hand brakes. Young fingers are usually not strong

enough to operate them successfully and rapidly if an emergency stop is required. The reverse foot brake is a much more satisfactory method of stopping a bicycle.

For safety's sake you should make it a point to go with him on his first rides and impress on his mind some of the important safety rules of bicycle riding. The first is to always observe traffic rules just like automobile drivers and, when he is out with his friends, to always ride in single file.

Be sure his bicycle is equipped with a bell and lights that work properly. Also that brakes are properly adjusted for quick, safe stopping. Caution him not to ride on heavily travelled roads. Avoid travel at night as much as possible but make sure his bike has a large red reflector at the rear. And finally, remind him that a clean and well maintained bicycle is a safe bicycle.

The State Department of Motor Vehicles has issued ten rules for safe bike riding. Have your youngster clip and memorize them before starting summer bike riding in earnest.

1. Never carry passengers.
2. Observe traffic laws.
3. Use hand signals to indicate turns.
4. Do not ride from between parked cars.
5. Keep to the right side of the road.
6. Keep brakes in good shape.
7. Avoid stunt riding.
8. Do not hitch rides.
9. Walk bike against traffic.
10. Always ride carefully.

Baby Clinic

White Oak—Proximity—Revolution

New members present at the Baby Clinic on Wednesday afternoon were Christine Rebecca Nance, daughter of Mr. and Mrs. Clumel Ray Nance; Debra Elaine Coffey, daughter of Mr. and Mrs. James G. Coffey; Terry Ann Elder, daughter of Mr. and Mrs. Robert C. Elder, Jr.; Mystie Heath, daughter of Mr. and Mrs. Elmer Heath.

Others present were Vicki Vestal, Kathy Ammons, Guen Bullard, Martha Sue Lawson, Frances Lawson, Yvonne Nelson, Deborah Eaton, Nancy Petty, Jerry Palmer, Vicky Wyrick, Emory Durham, Alice Fay Overly, Carlton Whitesell, Julia Ann Whitesell, Betty Sue Martin, Patricia Pridemore, Marie Pridemore, Kay Amos, Dale Stevens, Stephen Foster, Karen Nelson.

Nurses were Mrs. Juanita Johnson, R.N., and Mrs. Margaret Havlock, R.N. They gave 17 immunizations, two vaccinations and three typhoid injections.
